

MZVF0425 ALL-IN-ONE Multifunctional zoom digital microscope

Technical specification:

optical zoom magnification range: 0.4X~2.5X
Illuminator: adjustable LED ring light
Working distance: 80mm
Field of View: 18.5x10.5mm~3x1.7mm
Depth of Field: 4.5mm~0.22mm
Camera: Sensor size: 1/2", with measurement function
Pixel Size: 1920x1080; 60fps
Image Output: HDMI
Input Voltage: DC12V 2A
package size: 45X42X37 cm
Gross weight: 8.000 kg

Main functions:

1. With image display and measurement function, it can be repeatedly positioned between 0.38x and 2.5x at ten magnification rates. Customers do not need to re-calibrate during measurement. Length, Angle, circular diameter and other geometric measurement can be completed by operating the mouse;
2. Built-in LED ring light, brightness can be adjusted through the screen menu;
3. The on-screen menu can be operated by a mouse, without the need for a computer and keyboard;
4. Pictures and measurement data can be stored and shared on U disk.

Standard configuration:

1. Zoom lens with built-in camera and adjustable LED illuminator;
2. A stand with big size stage 400*300mm and focus holder;
3. One HDMI cable;
4. One USB mouse;

Remark: you can match the display screen and U-disk by yourself. If you need us to offer them, please let us know before you place order.
